## CAREER OBJECTIVE

Aspiring Full Stack Web Developer with a robust foundation in computer engineering, evidenced by a Bachelor of Technology degree in progress with an 84% GPA, and hands-on experience in web development, data structures, machine learning, and database management. Eager to bring technical expertise and innovative problem-solving skills to a dynamic team, with certifications from Oracle and AWS, and practical project experience, including developing web games and eCommerce sites. Keen to leverage my knowledge in natural language processing to enhance user experience for an industry-leading software organization, while continually advancing my skills and contributing to the success of the company.

## EDUCATION
